## Concrete Products

Established in 1978, Conway Concrete Products is a family run company based in Cavan. Originally in the construction industry, Conway Concrete Products carved an enviable reputation for quality products and service. In the 1980s the company expanded it's portfolio to include the manufacture and sale of a range of concrete products to both the construction industry and domestic market.

The company has recently invested in a new purpose-built manufacturing plant, in Butlersbridge Co Cavan. With state-of-the-art equipment installed, this impressive premises is one of the most advanced of its kind. It enables Conway Concrete Products to not only develop new products and significantly increase the product range provided, but also to create new textures, colours and surface finishes.

As a result, the company is able to offer a wide range of solutions in paving and hard landscaping products to both the domestic and retail markets.

### Joint Filling Sand

Conway Concrete Products specially kiln dried sand is recommended for use with all types of concrete block paving. Available in 25kg bags, 40 bags per 1 tonne pallet.

### Colour and Finish Variation

Our products are manufactured from naturally occurring materials and consequently may show slight variations in finish and colour.

It is strongly recommended that products are taken from two or more packs and mixed during laying to minimise any colour variation.

All concrete products may suffer from efflorescence. This occurs naturally and will disappear with use. It is in no way detrimental to the performance of the product. No responsibility can be accepted for this natural reaction.

### Colour Reproduction

Every care has been taken to reproduce the colour of the blocks in this brochure as accurately as possible. However, we cannot guarantee the exact colour reproduction.

### Samples

Sample blocks are available from your nearest Conway Concrete Products Stockist upon request.

### Maintenance and Care

All paved surfaces will require occasional cleaning. In normal circumstances, regular sweeping will be sufficient. A range of specialist cleaning products are available, contact your local merchant for details.

It should be noted that lighter coloured blocks may exhibit tyre marks and therefore will require more cleaning and maintenance when used in certain situations.
